

# Poly Auger Fingers

This finger replaces the original metal finger in combine augers. They are strong enough to keep raking in the crop yet flexible enough to resist breaking when a rock enters the combine.

*A bent metal finger can cut an auger in half in less than 15 seconds. Poly fingers will not do this; poly fingers will disintegrate as they go through the combine. They are literally ground to dust that will not damage the combine.*

## John Deere 200/900

ORDER NO.	DESCRIPTION	STOCK	RETAIL
80649	12 pack kit, includes guides, bolts, and fingers.	006118	\$145.00
